GENERAL INFORMATIONEN ABOUT PRICE LIST

- The software PR, CO, SC, RE covers in each case FastViewer master module and FastViewer client module. The master module may not be started by as many as desired different workplaces, no installation takes place and nothing remains on the PC after closing the session. The customer module can be distributed completely freely. The list price covers the free access to the portal for customizing the software. No further operating fees result.
- Purchase and monthly version - only the number of parallel sessions will be counted. The monthly version is temporally limited on 31 days, the maintenance is covered in this monthly license fee.
- With the Prepaid versions you can run as many session as desired in parallel, the time will be counted in minutes cycles (an active session never will be cut off, even if the time account is consumed). The time account can be queried and loaded at any time over the personal customer portal. Loadings will immediately activated, you will receive direct an invoice for this loading amount. The time account does not have to be used up within a certain time. The smallest loading unit amounts to in each case 10 hours. Prepaid versions contain the maintenance/support authorization.
- "remoted" (RE) license model is based on the number of Clients. A remote-client has to be installed to get permanent on-line access to the machine. It's possible that 2 master serves can remoted a Client at the same time. The master module may be started also from as many as desired different places and is installation and residue-free.

SOFTWARE MAINTENANCE AND SUPPORT CONTRACT

FastViewer grants to his customers the following software maintenance and - support achievements with existing software maintenance and support contract:

- Supply of latest updates within the agreed product types during the contractual period.
- Supply of latest updates will be immediately after the final releasing. You can download the updates through your personal customer portal - see www.FastViewer.com
- Premium Support- and Hotline-Service direct from the software producer(during regular office hours)
- Guarantee of FastViewers world-wide server structure
- Information service (per E-Mail or hotline)

Closing a 12 month software maintenance and support contract is mandatory - latest termination date of this contract is 3 month prior to it's end. The contract fee is 15% of the net list price at the time of purchase. Existing contracts will be renewed and invoiced automatically at the end of the contract-period, if not terminated in time. With subsequent orders the free contribution of the software maintenance and support achievement up to the cost-relevant main maturity of the first order is granted.
